

Highlighting Annotations

To configure settings of annotation types go to the *Annotation Highlighting* tab in the *Options Panel*.

By default the tab shows annotations types of the opened *Sequence View*.

Help

If you want to see all annotation types, click the *Show all annotation types* link. The *Previous annotation* and *Next annotation* buttons seek to the previous or to the next annotation of the view correspondingly.

Find below information about annotations types' properties that you can configure.

- [Annotations Color](#)
- [Annotations Visability](#)
- [Show on Translation](#)
- [Captions on Annotations](#)
