

# Export Consensus

To export consensus sequence use the *Export consensus* tab of the *Options Panel*:

Export Consensus

Export to file

File format

Plain text

**Info: alphabet of the consensus is undefined, the sequence can only be saved into a plain text document.**

Export

The following parameters are available:

*Export to file* - here you need to select path for the output file.

*File format* - format for the output file.

When you click on the *Export* button the consensus sequence will be exported into selected output file.
