Assembly Browser Window Components

An Assembly Browser window consists of:

Assembly Overview

By default, shows the whole assembly overview. Can be resized to provide an overview of an assembly part.

Reference Area

Shows the reference sequence.

Consensus Area

Shows the consensus sequence.

Ruler

Shows the coordinates in the *Reads Area*.

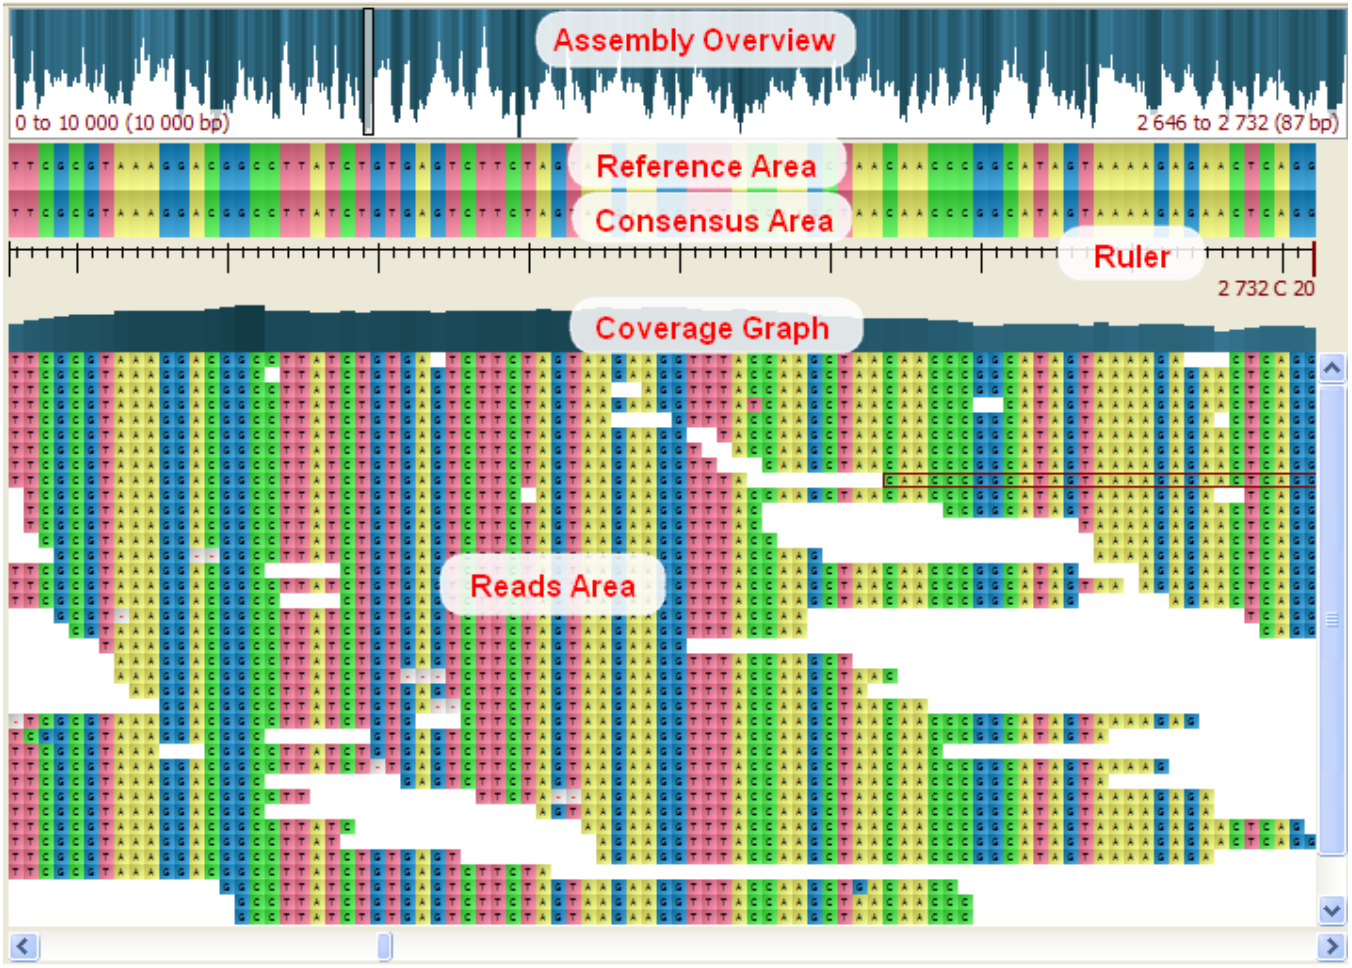

Reads Area

Displays the reads.

Coverage Graph

Shows the coverage of the Reads Area.

See the example below:

Assembly Overview
0 to 10 000 (10 000 bp)
2 646 to 2 732 (87 bp)
