Exporting Alignment to Other Formats

To export alignment to a new document in a required format select a single object with an alignment in the *Project View* window and click the *Export/Import Export object* context menu item:

The *Export Document* dialog will appear:

Here you may select the name of the output file in the *Save to file* field and, optionally, choose the format of the output file in the *File format* field. Use the *C ompress file* checkbox to compress the file. The *Add to project* checkbox, checked by default, adds the output file to the current project. After choosing all parameters click the *Export* button.
