

Changing Labels Formatting

To change formatting of a tree labels select the *Labels Formatting* toolbar button or the *Tree settings Options Panel* tab:

A screenshot of a software interface for formatting tree labels. It features a 'Color' selection box with a grey swatch, a 'Font' dropdown menu showing 'Helvetica', a 'Size' input field with '12' and a small up/down arrow, and an 'Attributes' section with three buttons: 'B' for bold, 'I' for italic, and 'U' for underline.

Color

Font Helvetica ▼

Size 12 ▲▼

Attributes B I U

Here you can select color, font, size and attributes (bold, italic, etc.) of the labels.

Note that when *a clade has been selected* the labels formatting settings are applied to the clade only.
