Changing Appearance

Default setting that influence the Workflow Designer appearance can be set in the *Application Settings* dialog. The parameters are shown on the image below:

The *Show grid*, *Snap to grid*, *Element style* and *Element font* parameters affect the view of a workflow:

To change an appearance of a particular element use it's context menu submenus *Item properties* and *Item style*.

Another way to change an element style is to use the *Item style* submenu in the toolbar.
