Write Plain Text Element

Writes strings to a file.

Parameters in GUI

Parameter	Description	Default value
Output file (required)	Location of the output data file. If this attribute is set, then the “Location” slot is not taken into account.	
Existing file	If a target file already exists, you can specify how it should be handled: either overwritten, renamed or appended (if supported by file format).	Rename
Accumulate objects	Accumulates all incoming data in one file or creates separate files for each input. In the latter case, an incremental numerical suffix is added to a file name.	True
