Moving Subalignment

To move subalignment there are different ways:

1. Select a subalignment and drag and drop it. The subalignment will be moved.
2. With a help of the *Space,* the subalignment will be moved to the right by the size of the selection. With a help of the *Backspace*, the subalignment will be returned to the first state.
3. With a help of the *Ctrl+Space,* the subalignment will be moved to the right by one column. With a help of the *Ctrl + Backspace*, the subalignment will be returned to the first state.
4. With a help of the *Ctrl*, you can join the parts of alignment. When there is a fragment of characters, surrounded by gaps in a row, select continuous block without gaps on *Ctrl* pressed and move the selection to the right/left.
