## **Available Fragments**

All the fragments available in the current project are shown in the Available fragments list.

You can automatically create a fragment from a DNA molecule from the current UGENE project. Click the From Project button to do so. The Select Item dia log appears with the sequence objects available. Select a sequence and press the OK button. After that create a fragment in the appeared Create DNA Fragment dialog as described in the Creating Fragment paragraph. The fragment created from the sequence appears in the list of available fragments.
